PROFESSIONAL EXPERIENCE

Web Designer / Developer

Everbridal | Contractor | Remote | Dec 2025 - Present

- Implemented 17+ end-to-end lead magnet workflows using GoHighLevel forms and CRM automations, optimized across platforms and device sizes.
- Redesigned and optimized client websites across WordPress, Wix, Squarespace, and Webflow for responsiveness, usability, SEO, and conversion.
- Established the team's first standardized web development workflow, improving consistency from request intake through delivery.
- Managed ongoing website maintenance and client lifecycle changes, including deactivating and restoring website and funnel assets based on account status.

Web Implementation & Migration Specialist

NMG Nationwide Marketing Group | Full-time | Remote | Mar 2024 - Present

- Migrated and redesigned 40+ client websites ranging from 10 to 60 pages, improving load speed, accessibility, and mobile usability.
- Improved Lighthouse performance scores by 30% on average across migrated websites through front-end and content optimization.
- Applied WCAG accessibility standards, SEO best practices, and responsive design principles across client implementations.
- Collaborated with migration, design, and Client Account Management teams to deliver scalable solutions on a proprietary CMS using Bootstrap 5, TypeScript, GitHub, and Material UI.

Front-End Developer

Fennec Startup | Contractor | Remote | Jul 2025 - Oct 2025

- Completed the React Native iOS build and delivered app-wide interface improvements using reusable components.
- Resolved critical UI/UX issues and advanced a functional Android build toward feature parity with iOS.
- Led a UI redesign with the design team, translating Figma prototypes into responsive front-end components.

SELECTED PROJECT

Category Studio | React, TypeScript, Vite, Supabase

github.com/SCR08/category-template-builder

- Built a Netlify-ready category template builder with modular previews, browser-based persistence, and exportable HTML, CSS, and JavaScript.
- Added Supabase-backed community templates and automated Node tests for core template and library behavior.
